# Quiz: Variable Scope

## Quiz Question

Read through this code snippet:

```
egg_count = 0

def buy_eggs():
    egg_count += 12 # purchase a dozen eggs

buy_eggs()
```

What is the result of running this code? If you aren't sure, try running it on your own computer!

- ○ `egg_count` equals zero
- ○ `egg_count` equals 12
- ◉ An error occurs ✓
